

ECO Scribes

Engineered to last

EcoScribe Range

Revolutionary writing technology meets sustainable design with the EcoScribe – a writing implement featuring graphene tips that last for years of regular use.

With four distinct variants to suit different preferences and branding needs, the EcoScribe eliminates the need for frequent replacements whilst providing a premium writing experience that reflects your brand's commitment to innovation and sustainability.

Perfect for educational institutions, corporate environments, sustainable brands, tech companies, conferences, trade shows or any organisation looking to provide a genuinely innovative and environmentally responsible promotional product.

The EcoScribe represents the future of writing implements – sustainable, innovative and genuinely useful.

Key Features

- ▶ **Graphene tip technology** – Advanced material provides smooth, consistent writing with exceptional longevity
- ▶ **No refills required** – Extended lifespan writing with no ink and no waste
- ▶ **Four versatile variants** – Choose the style that best suits your audience and branding requirements
- ▶ **Full-length branding** – Print along the entire length on one or both sides for maximum impact
- ▶ **Always made in the UK from recycled plastic or our Recycled Plus (R+) plastic which has a speckle appearance**
- ▶ **Digitally printed CMYK as standard** – Vibrant, permanent full-colour branding
