

**BRANDED MERCHANDISE MADE FROM  
MARINE RECOVERED PLASTIC**

**MADE IN  
BRITAIN**

# OCEAN POSITIVE

The innovative Ocean Positive collection transforms marine waste into powerful promotional opportunities whilst actively contributing to ocean conservation. Each product in this range is made from plastic that was once polluting UK waters, creating premium promotional merchandise with genuine environmental impact that you can proudly share.

- **UK MANUFACTURED FROM RECYCLED MARINE PLASTIC**
- **SOLAR-POWERED PRODUCTION FACILITY**
- **FULLY TRACEABLE FROM OCEAN TO FINISHED PRODUCT**
- **AVAILABLE AS UNBRANDED STOCK OR WITH APPLIED DECALS**
- **CMYK PRINTING AS STANDARD**

Through a three-stage process, marine plastic is systematically recovered from UK waters and coastal areas, transformed using solar-powered manufacturing in Cornwall, and achieves zero waste through a circular production approach. Every offcut is fed back into the cycle, maximising the environmental benefit of each piece of marine debris rescued.

Products made in this groundbreaking material offers the perfect blend of sustainability leadership and marketing impact, delivering memorable promotional products that recipients will genuinely appreciate whilst showcasing your commitment to ocean restoration and providing powerful sustainability stories to share.

***“The scale of ocean plastic pollution is staggering with abandoned, lost, or otherwise discarded fishing gear considered the largest contributor to sea-based sources of marine plastic debris. This crisis drove the development of Ocean Positive”***

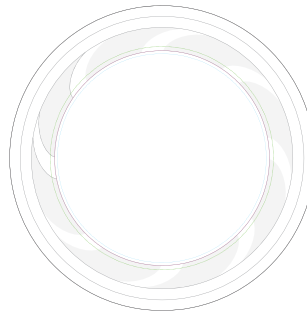

# OCEAN POSITIVE FLYING DISC

# PRODUCT CODE: TUR-MTMP

- Always made from 100% marine recovered plastic.
- Lightweight design for improved flying.
- Large top branding area, offering high visibility.
- Artwork digitally printed to decal and applied to frisbee

This high-quality promotional frisbee tells a powerful story. Made from plastic that was once polluting our marine environment, it now serves as both a fun promotional product and a conversation starter about ocean conservation.
